

An iPad For Your Thoughts

What's a penny nowadays, anyway?

This year, in appreciation of your participation in the **FAMA/FEMSA Apparatus and Economic Outlook Survey**, we'll enter you into a drawing for an Apple iPad.

The survey – focused on apparatus, funding and equipment – helps continually improve our service to fire fighters, fire departments, and municipalities. Our members use the survey results to develop products and services to meet your changing needs and requirements.

To be entered in the iPad drawing, simply visit www.fama.org/survey or www.femsa.org/survey and complete the Educational Committee Survey.

Thanks for helping us better help you!

FAMA is the Fire Apparatus Manufacturers' Association. Members include the major manufacturers of fire apparatus and components that are affixed to or carried upon the apparatus for use in connection with the apparatus performing its fire fighting function.

FEMSA is the Fire and Emergency Manufacturers and Services Association. Members include nearly all major manufacturers of SCBA's, personal protective gear, rescue equipment, water delivery equipment and many of the top fire equipment dealers.
