

Conference Investment and Value

	Cost	Value	
Registration Fee	\$129	\$600+	Other fire service conference fees start at \$600 for two days of training. The NVFC conference is a small, volunteer-focused event, allowing more time for instructor Q&A, learning from your peers, and networking. You'll walk away with access to resources and instructors for ongoing learning.
Meals & Refreshments	Included in registration	\$120+	The Summit fee includes a light breakfast, lunch each day, and breaks with coffee, tea, and snacks. Our evening Networking Social on Friday includes appetizers and beverages. And you'll get to spend time networking with other attendees, instructors, and industry leaders!
Hotel	\$149/night +taxes	\$300+/night	With other fire service conferences, hotel room blocks near the conference site start at \$300 per night. Less expensive hotels may be available further from the site, but this adds time and travel expenses.
Travel Costs	Varies	Varies	Oklahoma City is in the middle of the U.S. – making it a shorter flight nationwide. It's also a day's drive from many Plains states. Once in OKC, you'll find prices are lower than most other major cities.
Total:	\$475 plus transportation*	\$1,320 plus transportation	

* Travel stipends are available, covering up to \$900 in eligible expenses!

Find out more at www.nvfc.org/summit. Apply by May 1.

Value of networking and connecting with your peers from across the United States: Priceless!

"Top notch! 100% great - I go to a lot of conferences and this is one of the best."
